

EXCHANGE®
Infinite possibilities.

In collaboration with Allseating's Design Team, Nick Gillissie spent years perfecting the design, functionality and ergonomics behind Exchange.

Seven injection-molded recycled plastic components equate to 16 standard configurations and offer over 2,725 possibilities. An alternative to traditional workstations and boardrooms, Exchange supports overall wellness by promoting movement and collaboration. Its flexible design gives individuals the freedom to work how and where they want.

Exchange offers everything from single, double, triple, and quad, to L-shape, U-shape and custom open plan collaborative enclosures. Six table options, 16 paint finish colors, 13 laminate options, a comprehensive privacy screen program and power options allow Exchange to meet the needs of any environment, and flow cohesively across an entire floor plan, from executive office, to lobby, to cafeteria, to the spaces in between.

Exchange's building-blocks, its seven pre-consumer recycled plastic components, along with removable and easily changeable covers, are what make Exchange easy to configure and to reconfigure as the needs of the workplace evolve.

- 1 Exchange mid-arm three-seater with right-handed bent plywood armrests in Light Wood, storage and legs in Smoke finish and electrical in Cloud.
- 2 Exchange double work pod with desk in Natural, electrical in Cloud, storage and legs in Carob finish.
